

## **Equity Afia Opens 3 New Medical Centres in Lodwar, Marsabit and Thika Road, Nairobi Increasing its Coverage to 16 Counties**

- *The opening of the three new medical centres bring the franchise's network to 44*
- *The unveiling of the new facilities underpins Equity Afia's commitment to continue driving inclusive, affordable and quality healthcare for all*

**Nairobi 1<sup>st</sup> September 2021...** *Equity Afia* has opened three new medical centres in Lodwar, Marsabit and at Mountain Mall along Thika Road bringing the franchise's network to 44. Equity Group Foundation, using the *Equity Afia* franchise model, is focused on increasing access to affordable and high quality health services across Kenya in both urban and rural locations.

The unveiling of the new facilities underpins *Equity Afia's* commitment to promote inclusivity through promoting access to quality healthcare. Similar to all other *Equity Afia* medical centres, the three new facilities will be run by full-time medical doctors who are alumni of the Equity Leadership program and supported by accredited and certified clinical teams thus guaranteeing sustained and standardized high quality of care.

Commenting on the opening of the new medical centres, Equity Group Commercial Director Polycarp Igate said that *Equity Afia* as an entity remains keen on expanding its network to reach all Kenyans through the provision of quality and affordable healthcare services wherever they are.

"Our goal as *Equity Afia* is to avail opportunities for all Kenyans to access world-class medical services at pocket-friendly costs regardless of their financial status and geographical locations. By increasing access to healthcare, *Equity Afia* is promoting proper health seeking behavior allowing communities to lead healthy lives." said Igate.

Located at Kanamkemer along Robert Junction on Catholic Road, Lodwar and Total Plaza in Marsabit, the two clinics are vantageably positioned to serve the agricultural and business communities within the two counties and are expected to improve the health seeking behaviour and outcomes for the residents. This is through the provision of comprehensive primary care, increased vaccine coverage and improved access to specialized medical care services.

The *Equity Afia* medical model has adopted a combined, inclusive approach, allowing clients diverse options of making payment including cash and digital payment options, the use of NHIF and private insurance covers as well as the use of micro-medical insurance and informal health funds; thus positively influencing how Kenyans seek medical treatment and their perceptions about health and the healthcare system.

The newly opened *Equity Afia* clinics will offer comprehensive outpatient care in general consultation, specialized clinics, antenatal follow up and well-baby clinics, dental services, optical services, paediatric services and nutrition & wellness clinics , among others and supported by well-equipped laboratories and pharmacies stocked with both generic and branded medicine.

All *Equity Afia* clinics have been established by alumni of the Equity Leaders Program (ELP) who have continuously shown commitment to driving value to their communities. So far, ELP has a database of slightly over 1,000 professionals and trainees within the medical field.

The Thika Road facility which now brings the total number of *Equity Afia* clinics within Nairobi to 15 is located on the second floor of Mountain Mall building. **Ends...**

## About Equity Afia

Equity Afia (EQA) was established in 2015 under the Equity Group Foundation's (EGF) health pillar. The goal of Equity Afia is to ensure the sustained improvement of the health and well-being of Kenyans by increasing access to utilization of quality, affordable and standardized healthcare.

The Equity Afia medical centres are fully-fledged multi-speciality centres offering outpatient medical care services such as general consultation, specialised clinics, dental, optical, dermatological, paediatric and nutrition services, among others and are supported by ultra-modern laboratories and in-house pharmacies that stock quality, generic and branded drugs.

Equity Afia has instituted a rollout plan of setting up and operationalizing more outpatient health facilities over the next few years. These will be distributed across the country to ensure presence and coverage in each county.
